FAMILY CASA RELVAS

We were born with our feet on the ground, in a family connected to agriculture for generations. It is in our nature to love the genuine things in life. Like the company of a good wine with every meal, meeting or celebration.

Our mission is to cultivate, harvest and produce quality wines to accompany each and every moment. It is the celebration of life in which wine has a special place that motivate us daily to produce wines at Casa Relvas.

Alexandre Relvas

PRODUTOR

WHO WE ARE

Casa Relvas was born of the will to continue the history of a family connected to the land for five generations, on two continents. This family project began in 1997 in São Miguel de Machede, in Redondo, by Alexandre Relvas, who saw in “Herdade de São Miguel” the vast horizons of his roots in Africa. The passion for Alentejo and the respect for its unique and genuine terroir led to the first step in this project: the typical cork tree afforestation. But it was in the vineyard, a culture with more than 2000 years of history in the region, that we discovered our passion.

Our family manages today **350 hectares of vineyards**, **900 hectares of forest** and **250 hectares of olive grove**

OUR ESTATE WINES

ART.TERRA

Each wine from the ART.TERRA family is unique and unrepeatable. In each of these wines we seek the highest expression of the terroir, recovering ancestral methods of vinification, such as the use of Amphoras, fermentations in winepress with whole berries and step on foot. The result is a family of surprising and unique wines, where the defense of the Alentejo wine tradition marries contemporary taste for authenticity.
