- Bottle type: Tokaj stamped BVS- uvag (appr. 501 g)
- Bottled: 2023.
- Available quantity of this vintage: 4600 bottles

Its light-bodied and more relaxed style balances a pleasantly refreshing acidity and the rounding effect of a few grams of residual sugar towards a harmonious palate. Very fine carbonation bubbles add an airiness to its flavour and highlight its playful minerality. The finish is refreshingly citrusy, with pleasantly tart notes and soft textures of a hint of sweetness that encourage further tasting. At 8-10 C°, it is a refreshing experience on its own, but it is also a great accompaniment to dressed salads, fish or fresh cheeses.
