

BIÓNINA

# EVERYONE MAKES BUBBLES. FEW MAKE THEM MEAN SOMETHING.

At Bionina,  
we don't just  
carbonate  
water.  
We bring to life  
what you drink.

Organic used to mean  
boring, quiet,  
a little too serious.  
We made it bright again.  
Honest. Playful. Real.

No fake flavours.  
No fake claims.  
Simply ingredients,  
water, and care.

We don't make drinks  
for the healthy few.  
We make organic drinks  
that taste good,  
and make you feel  
even better.

Our lemonades smile.  
Our tonics reveal.  
Our innovations explore.

Because true freshness  
isn't about what's inside  
the bottle, it's about what  
it stirs up in you.

## BIONINA TRANSFORMS NATURE'S PURITY INTO SPARKLING PLEASURE.

# WHY DO WE EXIST?

# BECAUSE ORGANIC FORGOT HOW TO HAVE FUN.

The world didn't  
need another serious  
drink.  
It needed one that  
feels alive: natural,  
playful, and real.

Bionina brings back  
what organic was  
always meant to be:  
simple, joyful, and  
full of life.

**NATURAL  
WITHOUT THE  
COMPLEXITY.  
CONSCIOUS  
WITHOUT THE  
COMPROMISE.**

# THE STORY BEHIND THE SPARKLE

We started  
with lemons.  
And ended up  
redefining  
refreshment.

In 2012, Bionina became  
Belgium's first organic  
lemonade: simple, honest,  
and full of life.

Born from real Italian fruits  
and a tradition of craft,  
it stood for everything  
the category had forgotten:  
joy, authenticity,  
and sincerity.

BUT THE  
WORLD  
CHANGED.  
PLEASURE  
GOT SMARTER.  
NATURE  
GOT STYLE.  
AND SO  
DID WE.

FROM OUR ROOTS  
IN NATURE  
TO THE MOMENTS  
YOU ENJOY,

**BIONINA  
IS EVOLVING  
FROM PURE  
REFRESHMENT  
TO THE ART  
OF NATURAL  
MIXOLOGY.**

# PREMIUM ORGANIC DRINKS

WHERE INNOVATION  
MEETS NATURE.

Bionina is a collection of three ranges, each with its own personality, yet the same signature spirit.

# WE USE SIBILLA MINERAL WATER

Deep in the heart of the Italian Sibillini Mountains flows a legendary spring, untouched since the 3<sup>rd</sup> century BC.

According to legend, Queen Sibilla lived in a hidden cave deep within these mountains, where a magical spring still flows today.

Protected by nature and unchanged by time, this ancient source gives life to the sparkling mineral water that defines Bionina's pure and refreshing character.

Sibilla water emerges from high-altitude springs: an oligomineral water, naturally light, clear, and crystalline.

Enriched with natural geological CO<sub>2</sub> and collected through respectful, sustainable processes, it captures the essence of its mountain home.

The water from this spring has long been known for its extraordinary purity, bringing a sense of clarity, well-being, and a touch of mountain magic with every sip.

# ORGANIC SPARKLING JUICES

THE ORIGINAL  
BIONINA  
CHARACTER.

The first organic lemonades ever to hit the Belgian market, crafted with pure Italian spring water sourced from an ancient Roman origin.

Bionina's organic lemonades are made with mineral water from the sunny hills of northern Italy: clear, light, and naturally rich in minerals.

We mix this water with real organic fruit juice and a touch of organic

cane sugar to create a drink that tastes natural, lively, and full of character.

Bright, refreshing and playful: that is the true spirit of Bionina.
